**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Drawings*

1. New corrected drawings are required in this application because figures are of poor print quality (fig. 2), and figures with letters (fig. 3, 4). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Ecks (U.S. 2,433,548). Referring to claim 1, Ecks discloses a flexible sheet (10) having two ends, for supporting the user, actuation means (col. 2, lines 38-54) for bending the flexible sheet wherein the actuation means is connected to at least one end of the flexible sheet (at (15)), and a frame (30) wherein the actuation means is mounted to the frame.

4. Referring to claim 7, Ecks discloses the device further comprising a pivotal support having a first end and a second end, wherein the first end is pivotally connected

to the flexible sheet, and wherein the second is pivotally connected to the frame (indirectly via actuation means).

5. Referring to claim 8, Ecks discloses the device further comprising a pivotal support having a first end and a second end, wherein the first end is pivotally connected to the flexible sheet and wherein the second end is pivotally connected to the actuation means.

***Allowable Subject Matter***

6. Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
